

Central Intelligence Agency

Washington, D. C. 20505

1 May 1985

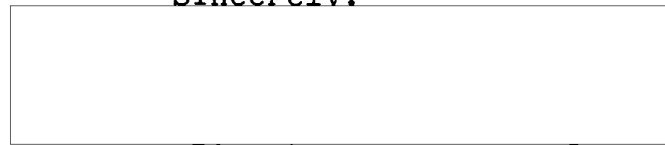

Mr. Kenneth de Graffenreid
Senior Director of Intelligence Programs
National Security Council
Old Executive Office Building
Washington, D.C. 20500

Dear Mr. de Graffenreid:

On behalf of the participants in the Agency's first Seminar on Science and Technology Forecasting. I would like to express our appreciation for your help in making it a success.

As you well realize, maintaining continuity between the Intelligence Community and the policymakers is often hampered by a lack of communication between the two. Your on-target comments during our Seminar contributed in a significant way to opening dialogue between the two groups. I hope the seminar results in more quality S&T forecasts of benefit to the NSC decision making process.

Sincerely,

Director
of
Training and Education
